

# CATSWEB Registration Tools and Tips

## Check Registration Eligibility

- Find out if you have any holds
- Find out registration times
- Find student information such as honors status, GPA, hours completed, probations status, and test scores

## Search for Open Classes (most current availabilities)

- Allows you to easily search for classes that are open
- The most common error is choosing the wrong semester

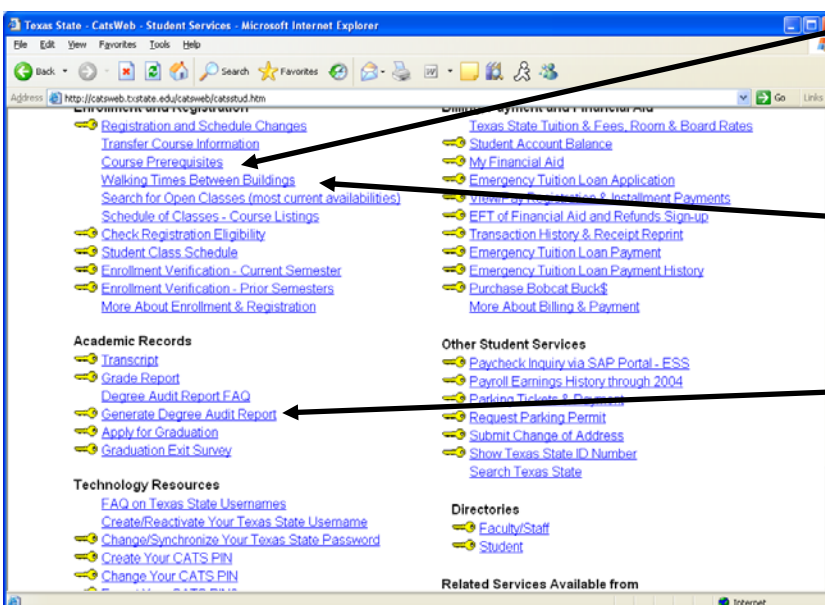

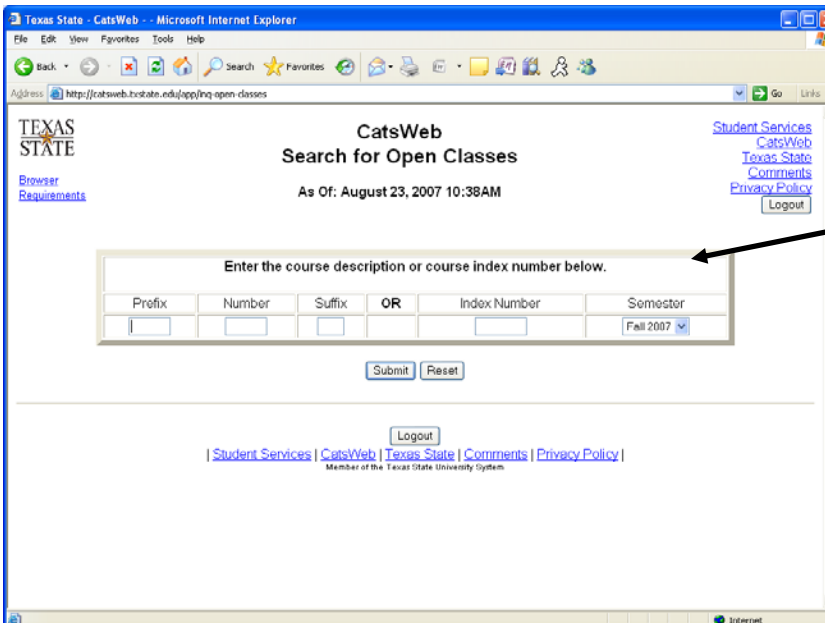

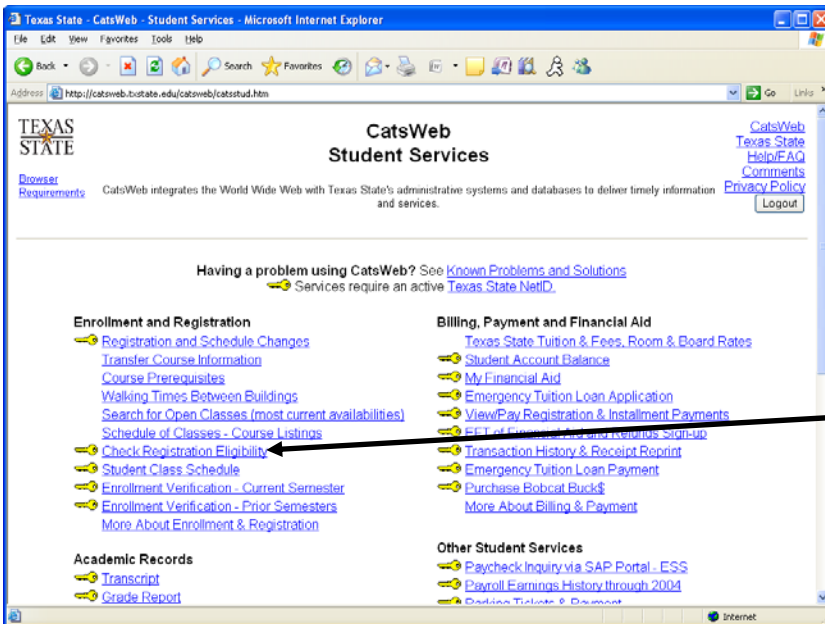

## Course Prerequisites

- Allows you to view the most up to date prerequisites for a course

## Walking Times Between Buildings

## Degree Audit Report

- Allows you to view your degree audit – personalized checklist, The 'How-to Degree Audit' for more information

## Tips/What to do if

**Closed class:** Speak with the department that oversees the course to find out what the procedures for being added to a closed class are. Advisors at the McCoy College cannot add you to a closed class section.

**Do not meet the prerequisites:** Verify that you do meet the prerequisites. If you do not, then you cannot take the next class. Prerequisite courses present information that is essential to your success to the next course. If you do meet the prerequisite or the prerequisite is a substituted course then speak with an advisor.
